CAREER IMPACT SCORECARD

\$400M+ ARR Portfolio	\$20M+ Pipeline Visibility	500M+ Daily Rows	45+ PBI Dashboards	65+ Monthly Hrs Saved	90% Metric Accuracy
--------------------------	-------------------------------	---------------------	-----------------------	--------------------------	------------------------

EXECUTIVE PROFILE

Senior Business Intelligence Analyst who surfaced **\$20M+** in untracked pipeline, built a zero-to-one BI platform serving **550+** users, and supports the data infrastructure for a **\$400M+** ARR global SaaS business. At **Optimizely**, architecting **Snowflake/dbt** pipelines processing **500M+** rows/day, running **15+ A/B experiments** at scale, and delivering executive dashboards driving quarterly **GTM** and **OKR** decisions across **9,000+** enterprise accounts. Previously at **ShopUp** (**\$195M+** GMV), owned **supply chain** and **credit risk intelligence** across **600,000+** retailers, eliminating metric discrepancies by **90%**. Combines **statistical experimentation**, **agentic AI workflows** (**Claude MCP**, **Optimizely Opal**), and **executive-level revenue storytelling** — open to senior analytics roles at remote-first global SaaS companies.

PROFESSIONAL EXPERIENCE

Optimizely

Jan 2025 –Present

Senior Business Intelligence Analyst –Analytics & Data

Dhaka, Bangladesh (Remote, Global)

🏢 Digital Experience Platform · \$400M+ ARR · Global SaaS · 1,000+ Employees

- Surfaced **\$20M+** in untracked pipeline by unifying **Salesforce**, **Marketo**, **NetSuite**, and **Clari** in **Snowflake** — lifting campaign ROI by **30%** and surfacing **20%** more marketable leads, reshaping Q2/Q3 budget and territory allocation.
- Built **zero-to-one BI Center of Excellence** as **primary analytics owner** across **10+** departments — architected the **north-star KPI framework**, **OKR reporting layer**, and **self-serve BI platform** adopted by **550+** users, underpinning board-level **GTM planning** for **9,000+** enterprise accounts.
- Resolved **6+ months** of cross-team metric misalignment by designing the enterprise **semantic layer** and **data-contract governance** framework — certifying ARR, MRR, NRR, CLV, ARPU, CSAT, and Win Rate as single-source-of-truth metrics with **RLS**, **GDPR** controls, and **data lineage**, reducing inconsistencies by **30%**.
- Improved retention modelling accuracy by **18%** by running **15+** concurrent **A/B experiments** with **statistical power analysis** and **Bayesian hypothesis testing** — cutting churn-risk identification lag by **2+ weeks** and improving **NRR** and **churn rate** visibility.
- Engineered **Snowflake / dbt** pipelines processing **500M+** rows/day at sub-second latency — **star-schema** models, **CI/CD** (GitHub Actions), automated **data validation**, and full **data lineage** across **3** domains — powering **550+** users across **20+** executive dashboards with zero unplanned downtime.

- **Eliminated 65+ hours of monthly manual reporting** by delivering **20+ Power BI** dashboards with **Advanced DAX**, **composite semantic models**, **paginated reports**, and **deployment pipelines** — reducing ad-hoc requests by **30%** and enabling always-on **self-serve** analytics.
- **Pioneered the organisation's first agentic AI analytics layer** — deploying **Optimizely Opal** and **Claude MCP agents** to automate **SQL extraction**, **NL-to-SQL**, **insight generation**, and **dashboard scaffolding**, reducing analyst turnaround time by **40–45%**.
- **Scaled analytics capacity without headcount growth** — mentoring **5+ embedded analysts** via **code reviews**, **structured onboarding**, and **cross-training**; established **CI/CD guardrails** and an **analytics playbook**, cutting dashboard failure rates by **40–50%** and ramp time by **3 weeks**.

ShopUp (Mokam CPG)

Oct 2023 – Dec 2024

Sales Data Analyst – Sales Capability & BI

Dhaka, Bangladesh

🏢 B2B Commerce Platform · \$195M+ Annual GMV · Series B · Bangladesh

- **Owned end-to-end revenue and supply chain intelligence** for a **B2B marketplace** processing **\$195M+** GMV across **600,000+** retailers — designed **marketplace metrics**, **supply chain KPIs**, and **working-capital efficiency** analytics, and led weekly **business performance reviews** for Business Heads across **4** verticals (**FMCG**, **Telco**, **Tobacco**, **Agro**), directly informing operational and strategic decisions.
- **Drove 20% uplift in fill rates** and **35%** reduction in working-capital-at-risk YoY across **5** regions — translating **competitive intelligence** into **pricing strategy** for VP Sales, Supply Chain, and Finance.
- **Freed 45% of warehouse capacity** via **slow-moving stock prediction models** using **time-series analysis** — auto-alerting departments **30 days** ahead of restocking thresholds and unlocking **20%** incremental sales.
- **Delivered 35% deposit growth YoY** via **credit risk analytics** and **predictive deposit-tracking** — improving fund utilisation by **30%** and cutting reconciliation by **40%**.
- **Reduced manual data preparation by 50% (25 hrs/week)** by deploying **25+ Power BI** dashboards with **Advanced DAX** and **ETL/ELT pipelines** in **Python**, **Azure Data Factory**, and **SQL Server** — serving **150+** DAU with **P&L**, **gross margin**, and **unit economics** models.
- **Cut MoM churn by 12%** among high-value retailer segments via **cohort analysis**, **funnel analysis**, and **RFM retention analytics** — established **data contracts** and **data dictionaries**, reducing metric discrepancies by **90%** and onboarding time by **3 weeks**.

AponTech Ltd.

Dec 2022 – Sep 2023

Associate Data Analyst – MIS, Product & Growth Analytics

Dhaka, Bangladesh

🏢 Consumer eCommerce/FMCG App · 100K+ Active Users · Dhaka

- **Achieved 85%+ demand forecasting accuracy** as sole analyst for a **100,000+** user **eCommerce/FMCG** app — building **XGBoost** and **scikit-learn** models in **Python** on discount sensitivity and SKU-level demand patterns (weighted F1: **85%+** vs. **62%** rule-based baseline).
- **Retained 20,000+ high-value users** and drove a **50%** basket-size increase (**\$16** → **\$24 avg. order**) via **lifecycle analytics**, **funnel analysis**, and **k-means / RFM segmentation**.
- **Lifted campaign ROI by 22%** via **cohort analysis** and **product-led growth analytics** on **100,000+** users — directly informing campaign targeting and budget allocation.
- **Identified \$150K+ in annual revenue leakage** via automated **anomaly detection** and **fraud pattern identification** in **Python** — eliminating **10+ hrs/week** of manual review.
- **Built end-to-end MIS reporting infrastructure** — **Python/SQL** pipelines ingesting **5+** sources and **20+ Power BI** scorecards with **DAX** and **data governance** standards — cutting the reporting cycle from **3 days** to **same-day**, reducing ad-hoc requests by **30%**, and eliminating **15+ hrs/week** of manual prep.

DataWorks Ltd. (Data Crafters LLC)

Data Analyst Intern –Data Engineering & Enterprise Reporting

May 2022 –Nov 2022

Houston, TX, USA (Remote)

US-Based Data Consultancy · Multi-Sector Client Base · Houston, TX

- Reduced query execution time by **25%** across **3** business units by engineering **ETL pipelines** and optimising legacy **SQL** via **stored procedures**, **CTEs**, and **query-tuning**.
- Defined the team’s **UAT** and **onboarding standard** across **6** analysts via **EDA** and **data profiling** in **Python** — documenting **schema inconsistencies** and **data quality reports** with **data lineage** annotations.
- Established **data governance standards** across **3** business units — translating requirements into **SQL queries**, **analytical views**, and **data dictionary** entries, reducing metric ambiguity.

EDUCATION

Bangladesh University of Professionals

B.Sc. in Information and Communication Engineering

Jan 2016 –Dec 2019

Dhaka, Bangladesh

ACADEMIC STANDING

3.65 / 4.00 · First Class Equivalent

KEY DISCIPLINES

DB Systems · Data Warehousing · ML · Statistical Methods · AI · Business Analytics

PEER-REVIEWED PUBLICATION Springer · AISC Series

Performance Comparison of Machine Learning Techniques in Identifying Dementia from Open Access Clinical Datasets · 2020 Advances in Intelligent Systems and Computing, Springer Nature View Publication

CORE SKILLS

Category	Skills
BI & Visualisation	Power BI · Advanced DAX · Semantic Models · Power Query · Tableau · Looker · Metabase
Generative AI & LLM Workflows	Claude API · MCP Agents · Optimizely Opal · NL-to-SQL · AI-Assisted Analytics · Automated Insight Generation · LLM Workflow Orchestration
GTM Analytics	RevOps · Revenue Operations Analytics · Pipeline Forecasting · Funnel Analysis · Conversion Rate · Bookings · Churn/Retention · Win Rate · ARR/MRR/NRR · Revenue Intelligence · Clari · Salesforce · Marketo · NetSuite
Analytics & Science	A/B Testing · Bayesian · Cohort · Funnel · Forecasting · Segmentation · RFM · CLV · Causal Inference · Statistical Power Analysis
Data Engineering	SQL · Python · Snowflake · dbt (tests, CI/CD) · Data Observability · SQL Server · Azure Data Factory · ETL/ELT · Git · GitHub Actions
ML & Modelling	XGBoost · scikit-learn · pandas · Regression · Time-Series · Clustering · Random Forest · Hypothesis Testing
Data Governance	Data Contracts · Data Products · RLS · GDPR · CCPA · Data Lineage · KPI Design · Semantic Layer · Executive Storytelling · Atlan · Confluence

CERTIFICATIONS

PL-300

Microsoft Certified

Power BI Data Analyst

DAX Expert

SQLBI Certified

Advanced DAX & Data Modelling

KEY PROJECTS

Project	Stack	Contribution	Impact
Sales Sight 360	PBI · DAX · PQ	End-to-end KPI suite: star schema, data contracts, advanced DAX, deployment pipeline — <i>Best Team Award Q4 2023</i>	+20% visibility
Retail Customer Analytics	Python · sklearn	Churn prediction & segmentation: Random Forest + k-means + lifecycle analytics	85% accuracy
Azure Multi-Source ETL	ADF · Logic Apps	Multi-source ETL/ELT pipeline with data quality checks, validation, and ADF Data Flow sink	5 hrs/wk saved
GTM Pipeline Forecasting	SQL · Power BI	Trend decomposition + root-cause analysis for GTM forecasting	+60% pipeline vis.
Customer Intelligence	SQL · Python	NPS + CLV + churn + funnel analytics for decision intelligence	40% faster delivery
Retail KPI Dashboard	SQL · Power BI	Retail KPI dashboard: semantic model + optimised query layer	25% query speedup
Campaign Finance	DAX · Power BI	Multi-touch attribution model with budget optimisation and paginated exec reports	15% ROI gain
Healthcare Analytics	DAX · Power BI	Clinical outcome models with RLS, governance guardrails, exec reporting	30% fewer ad-hoc
Full portfolio — 30+ dashboards, ML models, and ETL pipelines			View All

AWARDS & PROFESSIONAL RECOGNITION

Senior Leadership

OPTIMIZELY · 2025

Recognised across 5+ teams and endorsed by VP Analytics for transforming reporting infrastructure and enabling self-serve analytics for 550+ users across a \$400M+ ARR portfolio.

Cross-Team Recognition

OPTIMIZELY · 2025

Endorsed by 5+ cross-functional teams (Sales, Product, Eng, Marketing) for analytical leadership & org-wide data quality advocacy.

Best Performing Team

SHOPUP · Q4 2023

Built **Sales Sight 360** from scratch — adopted by 150+ DAU as the operational backbone for regional sales, earning the Best Performing Team award Q4 2023.

Pace Over Perfection

SHOPUP · 2024

Recognised for delivering 35% efficiency gains through automated **ETL pipelines** and self-service analytics across 10+ teams at a \$195M+ GMV marketplace.
